

STATEMENT ON FORM 34s

23rd August 2017

With the concrete evidence NASA has gathered for the Supreme Court, the Court will be unable to avoid confronting the simple, physical reality that over 14,000 Form 34As in NASA's possession have profound anomalies. That's about 40 percent of all forms! Even if the Court feels that this massive irregularity was not outright rigging, these forms are so fundamentally flawed that they are lawfully inadmissible, and cannot possibly be accepted as evidence of Uhuru's victory.

The only way to avoid discarding these thousands of Form 34s in NASA's possession from the Court's consideration would be to contend, and prove, that NASA forged these forms.

**Salim Lone, Adviser,
NASA Presidential candidate Raila Odinga**
