Mr. Wafula Chebukati
The Chairman,
Independent Election and Boundaries Commission
Anniversary Towers, University Way
Nairobi, Kenya

Dear Sir,

Ref: THE UNVEILED ELECTION PROJECT TEAM.

May I express our respect to your office as you work to address the many challenges occasioned by the nullification of the Presidential vote in the just concluded elections. We have noted that you have established a project team to run the fresh elections as ordered by the supreme court. We also appreciate the very difficult situation in which you find yourself stemming from the many ultimatums from the NASA formation that they will not participate in the elections unless certain individuals are removed from the exercise.

After publication of the names of your election project team, we have received credible information that in the list are people known to be partisan. They include the following staff members:

- | | |
|----------------------------|----------------------|
| 1. Marijan Hussein Marijan | 6. Joyce Ekuam |
| 2. Salome Oyugi | 7. Tabitha Mutemi |
| 3. Decimah Mmayi | 8. Limus Onyango |
| 4. Chispine Owiye | 9. Caroline Manyange |
| 5. Joseph Ayatta | |

Given the fact that acts of omission or commission that rendered the elections null and void originated from the IEBC staff we hereby register our strong objection to the deployment of the above to be in a position to run the process:

We look forward to receiving your response on this matter.

SINCERELY,

Hon. Raphael Tuju

SECRETARY GENERAL
