We further write in follow up to our letter afore-referenced and dated 22nd of September, 2017 [similarly addressed to the Jubilee Party]; in which letter we set-out various measures continued to be adopted by the Commission to enhance the credibility and integrity of the fresh presidential election, including addressing various concerns voiced by the NASA Coalition. The Commission, nonetheless recognizing your inalienable constitutional right to picket and demonstrate, writes to request that you put-off the planned protests to enable the joint consultative meeting scheduled for Wednesday the 27th of September, 2017 to address the concerns raised by the various stakeholders.
